- Mumbai, Maharashtra
- dhruv-solanki-699679313

## SKILLS

- React JS
- Node JS
- Express JS
- Mongo DB
- C Programming
- C++ Programming
- Git
- Windows
- Linux

## LANGUAGES

- English (Moderate)
- Gujrati (Fluent)
- Hindi (Fluent)

## INTERESTS

- Problem Solving
- Frontend Designing
- Learning new Technologies
- Collaboration & Teamwork

## PROFILE

Aspiring Software Development Engineer with strong foundation in Data Structures, Algorithms, and full-stack web development (MERN stack). Skilled in building scalable applications using React, Node.js, Express, and MongoDB, with hands-on experience in designing secure authentication flows, responsive UIs, and API integrations. Passionate about solving real-world problems with clean, efficient code and continuously learning new technologies to stay ahead.

## PROJECTS

### E-Commerce Website

Full Stack Developer (MERN)

- Designed and developed a full-featured e-commerce platform with product listings, categories, and advanced search/filter functionality.
- Implemented secure authentication, user roles (admin, customer), and seamless checkout with payment gateway integration.
- Built admin dashboards for inventory, order, and user management with real-time analytics.

### Blogging Application

Full Stack Developer (MERN)

- Developed a dynamic blogging platform supporting CRUD operations for posts, categories, and tags.
- Implemented rich-text editor, media upload, and SEO-friendly URLs for enhanced content publishing.
- Built user authentication, role-based access (admin, user, reader), and secure authorization flows.
- Integrated comments, likes, and share features to boost community engagement.
- Designed responsive UI with light/dark themes for improved user experience.

### Chat Application

Full Stack Developer (MERN + WebSockets)

- Built a real-time chat platform enabling one-to-one messaging.
- Implemented secure authentication and end-to-end encrypted communication.
- Integrated features like online status, message read receipts, and typing indicators.
- Optimized socket connections for low latency and smooth user experience.
